HYDROCARBON ABSORBENTS

NEGOCIOS GLOBALES SA
9 de Julio N° 1189 Floor 1 Of. N° 9 - Mendoza, Argentina
Tel: 00 54 261 4230482

They are watertight containers designed to contain any cans and/or drums with contaminating liquids (20-liter drums, 200-liter drums, 1000-liter IBCs etc.), so that, in case of breakage or leakage, hazardous liquids and substances (such as acids, toxic or flammable liquids) do not affect people's health or contaminate the environment.

Different formats are available according to the user's needs:

- Quantity and type of containers to be stored.
- If they will be moved by forklift or not.
- If liquid handling tasks will be carried out or not.

CODE 121-1

Material: Plastic
Size: 770x760x380mm
Capacity: 1 drum
Volume: 220 l

Additional specifications:
• Removable grid.
• High corrosion resistance.

CODE 121-2

Material: Metal
Size: 770x760x380mm
Capacity: 1 drum
Volume: 220 L

Additional specifications:
• Removable grid.
• High corrosion resistance.
• Transportable with pallet stacker or forklift truck.

CODE 121-3

Material: Plastic
Size: 1280x905x335mm
Capacity: 2 drums
Volume: 388 L

Additional specifications:
• Removable grid.
• High corrosion resistance.
• Transportable with pallet stacker or forklift truck.

ANTI-SPILL PALLETS

CODE 121-4

Material: Metal
Size: 1240x815x200mm
Capacity: 2 drums
Volume: 200 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

CODE 121-5

Material: Metal
Size: 1240x815x400mm
Capacity: 2 drums
Volume: 400 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

CODE 121-6

Material: Metal
Size: 2010x815x350mm
Capacity: 3 drums
Volume: 573 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

CODE 121-7

Material: Plastic
Size: 1250x1250x430mm
Capacity: 4 drums
Volume: 671 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

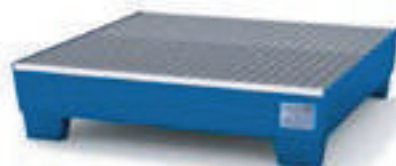

ANTI-SPILL PALLETS

CODE 121-8

Material: Metal
Size: 1240x1210x100mm
Capacity: 4 drums
Volume: 150 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

CODE 121-9

Material: Metal
Size: 1240x1210x200mm
Capacity: 4 drums
Volume: 300 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

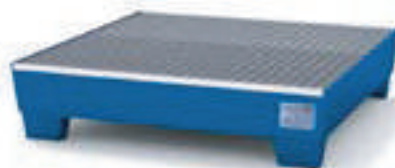

CODE 121-10

Material: Metal
Size: 1240x1210x335mm
Capacity: 4 drums
Volume: 500 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

CODE 121-11

Material: Metal
Size: 2420x620x100mm
Capacity: 4 drums
Volume: 150 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

ANTI-SPILL PALLETS

CODE 121-12

Material: Metal
Size: 2420x1210x170mm
Capacity: 8 drums
Volume: 500 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

CODE 121-13

Material: Metal
Size: 2420x1210x345mm
Capacity: 8 drums
Volume: 1000 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

CODE 121-14

Material: Plastic
Size: 1460x1060x720mm
Capacity: 1 bin/IBC
Volume: 1114m³

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

CODE 121-15

Compact version without filling support.

Material: Metal
Size: 1300x1300x700mm
Capacity: 1 bin/IBC
Volume: 1180 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

ANTI-SPILL PALLETS

CODE 121-16

Compact version with filling support.
Material: Metal
Size: 1300x1300x700mm
Capacity: 1 bin/IBC
Volume: 1614 L

Additional specifications:

- Removable grid.
- Support: 690mm
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

CODE 121-17

Extended version without filling support.
Material: Metal
Size: 1350x1300x700mm
Capacity: 1 bin/IBC
Volume: 1220 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

CODE 121-18

Extended version with filling support.
Material: Metal
Size: 1350x1300x700mm
Capacity: 1 bin/IBC
Volume: 1220 L

Additional specifications:

- Removable grid.
- Support: 690mm
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

CODE 121-19

Compact version without filling support.
Material: Metal
Size: 2700x1300x400mm
Capacity: 2 bins/IBCs
Volume: 1400 L

Additional specifications:

- Removable grid.
- High corrosion resistance.
- Transportable with pallet stacker or forklift truck.

ANTI-SPILL PALLETS

CODE 121-20

Compact version with filling support.
Material: Metal
Size: 2700x1300x400mm
Capacity: 2 bins/IBCs
Volume: 1500 L

Additional specifications:
• Removable grid.
• Support: 690mm
• High corrosion resistance.

CODE 121-21

Extended version without filling support.
Material: Metal
Size: 2700x1600x350mm
Capacity: 2 bins/IBCs
Volume: 4142 L

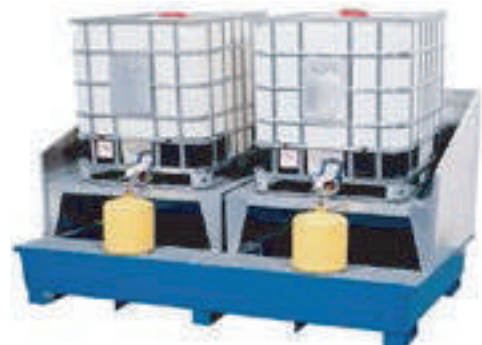

Additional specifications:
• Removable grid.
• High corrosion resistance.
• Transportable with pallet stacker or forklift truck.

CODE 121-22

Extended version with filling support.
Material: Metal
Size: 2700x1600x350mm
Capacity: 2 bins/IBCs
Volume: 4142 L

Additional specifications:
• Removable grid.
• High corrosion resistance.
• Transportable with pallet stacker or forklift truck.

CODE 121-23

Version with reinforced anti-spill tray.
Material: Plastic
Size: 1265x530x255mm
Capacity: 2 bins/IBCs
Volume: 80 L

Additional specifications:
• Removable grid.
• High corrosion resistance.
• Transportable with pallet stacker or forklift truck.
