CLEAN AREA KIT FOR HYDROCARBONS

The CLEAN AREA KIT, is composed of one or two 120 litre plastic containers, identified according to their contents.

- Physical appearance: greenish blue fiber.
- Specific weight: 0.20 - 0.22
- Humidity: 5.5%
- Residue by ignition: 4% ash.
- Inert materials: 0.5%
- PH: 7 (Neutral)
- Flash Point: 280 - 290°C
- Absorption capacity: 5 to 8 times its own weight (depending on the characteristics of the absorbed substance).

PHYSICAL AND CHEMICAL PROPERTIES

- Great absorption capacity and performance.
- Highly hydrophobic (repels water).
- Fireproof: it only carbonizes from 280°C, and it does not generate a flame.
- Due to its encapsulation capacity, it does not leach, avoiding indirect contamination.
- 100% biodegradable and natural.
- Ecological and friendly to the environment.
- Dries clean, without the need to use water.
- Non-toxic in its original form (non-polluting fibers).
- Easy-use, easy-application and high-absorption speed.
- There is no expiration date, but it is recommended to use the product within 3 years from the packing date.

ADVANTAGES

APPLICATIONS

Specifically designed to control emergencies arising from leaks or spills that allows rapid intervention or also to be used as a preventive element in operational facilities, fuel storage areas, lubricant centers, gas stations, etc.

In the presence of strong acids or alkalis, although it maintains its absorption capacity, it must be removed quickly, since it can be chemically attacked. As it is an organic material, it is necessary to carry out a compatibility test for its use. See the list of substances already tested.

LIMITATIONS

PRESENTACIÓN

Code	Product	Content	Weight
110496	Clean Area Kit 1	Yellow container: 18kg Loose Fiber, 2 socks, red waste bags and seals. Red container: only to dispose the contaminated fiber.	42kg
	Clean Area Kit 2	Red container: 1 Loose Fiber bag x12 kg, 2 socks, 20 absorbent pads 25x25cm (120gr), waste bags and seals.	22kg

CLEAN AREA KIT FOR HYDROCARBONS

Once contaminated, the product can be sent to final disposal through incineration or landfills according to the current legislation of each site.

**FINAL
DISPOSAL**

**Classification HMSI
NFPA 74**

HEALTH	0
FLAMMABLE	0
PHYSICAL DANGER	0
PERSONAL PROTECTION: Safety glasses Gloves Apron Powder respirator	F

- Type of risk caused by accidental exposure to material (Health): 0 (values range from 0 to 4)
- Flammability: 0 (values range from 0 to 4)
- Physical hazard associated with the material, reactivity (Physical hazard): 0 (values range from 0 to 4)
- Personal protective equipment: CATEGORY F (safety glasses, gloves, jump-suit and respirator against dust)
